

Allied Health Bursary Opportunities

Pinarc Disability Support is awarding final year students a \$10,000 bursary through its Allied Health Bursary Scheme.

The scheme supports career pathways to speech pathology, occupational therapy, and physiotherapy employment within the disability sector in either regional Ballarat or western metropolitan Melbourne (Melton).

Pinarc is committed to supporting allied health students entering their final year who have a commitment to working in the disability sector by providing financial assistance and possible work experience opportunities as therapy assistants whilst completing the final year of their degree.

Bursaries valued at \$10,000 each are available to be awarded to final year allied health students studying speech pathology, occupational therapy, or physiotherapy in Australia. Recipients are required to commit to a two-year full time return of service at Pinarc Disability Support's Ballarat or Melton site upon completion of their degree.
